DETAILED ACTION

Election/Restrictions

1. Claims 5 and 12-20 have been withdrawn from further consideration pursuant to 37 CFR 1.142(b), as being drawn to a nonelected species, there being no allowable generic or linking claim. Applicant timely traversed the restriction (election) requirement in Paper No. 3.
2. Applicant's election with traverse of Group I in Paper No. 3 is acknowledged. The traversal is on the ground(s) that it would not create an undue hardship on the examiner to search Groups I, II, IV together. This is not found persuasive because the application includes claims directed to more than one embodiment. In addition, the "general test as to when claims are restricted respectively to different species is the fact that one claim recites limitations which under the disclosure are found in a first species but not a second, while a second claim recites limitations disclosed only for the second species and not the first." See MPEP 806.04(f)..

The requirement is still deemed proper and is therefore made FINAL.

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Art Unit: 3611

2. Claims 1 and 2 are rejected under 35 U.S.C. 102(b) as being anticipated by Lange et al., U. S. Patent 5,556,258. Lange et al. teaches a flexible fluid (air) container (bag) 10 having a clock 40 mounted on the container.

3. Claims 1 and 2 are rejected under 35 U.S.C. 102(b) as being anticipated by Manly, Jr., U. S. Patent 3,872,235. Manly, Jr. teaches a flexible fluid (air) container (bag) 1 having a clock 2 mounted on the container.

Allowable Subject Matter

4. Claims 3-6 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

5. Claims 7-11 are allowed.

Conclusion

6. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Brown, U. S. Patent 6,290,2001 and Cohen et al., U. S. Patent 5,135,485 is cited to show a IV bag associated with a clock/timer. Kogler, U. S. Design Patent 367,427 is cited to show a bag and a clock.
